### 2/Complete the following table (1pt)

Noun	Verb	Adjective
	To protect	
safety	To save	
	to decide	decisive

# 3/Rewrite the sentence "b" so it means the same as the sentence "a". (1pt)

1/a -He said :" Pesticides and other chemicals have contaminated our food ".

- b- He said.....
- 2/a -He added :" We must make decisions to preserve nature ".

b-He added.....

#### 4/ Combine these pairs of sentences using the connectors in brackets. (1.5pts)

- a) Cars are useful. They may cause pollution. (though)
- b) CFCs destroy the ozone layer. People suffer from skin cancer.(consequently)
- c) Carbon Dioxide is increasing in the air. Cars and factories are releasing toxic gases. ( because of)

## 5/Give the correct form of the verb in brackets. (1.5pts)

- a) If metal (to get) hot, it expands.
- b) If it doesn't rain, plants ( to die)
- c) What would happen if the Martians (to land) our planet?

## 6/Fill in the gaps each time with one word only from the list below. (1pt)

#### buses – major – other – air

Air pollution is a dirtying of the...**1**...caused by toxic chemicals or ...**2**....materials. It can injure health, the enjoyment of life, or the working of ecosystem. The...**3**..... sources of air pollution are cars, trucks and...**4**..., waste incinerators, factories, and some electric power plants, especially those that burn fossil fuels, such as coal.

## 4/-Cross the silent letters in each of the following words : (1pt)

- column - when - world - fight .

## Part two: Written Expression

 Topic 1: This is a conversation between two friends. Complete what Rayan says

 Rayan;

 Malek: They are building a new factory

 Rayan:

 Malek: It will produce chemical products

 Rayan :

 Malek: You are right. It will cause many health problems.

 Rayan :

 Malek: If.

 Rayan :

 Malek: It will happen if people breath its fumes ?

 Malek : If.

 Rayan :

 Topic 2 write a composition about this topic

 Pollution is a problem threatening the world today. What would you do to reduce the danger of this phenomenon ? Suggest some solutions .
