Level : 2AS/GE	2019/2020
English Exam (first term	n) Time/ 2 hours
Name: Surnam	ne:
Part One: Read and comprehension	
everyone can help to reduce them and do the difference by saving energy at home. When you environment from the impact of climate change Energy is everywhere. We use electric TV, the kettle for tea or coffee, dishwasher, has stereo, mp3 player and more! All these devices that make the air we breathe impure. These en (cover) that traps the sun's heat inside our atm rise. If we make changes, there will be saving Energy efficiency is the easiest way to reduce g resources.	energy to move the mouse for a computer, to power airdryer, toaster, remote control, mobile phone, fridge es and machines release unclean substances and gases missions are heating the planet by acting as a blanket hosphere. Consequently, the temperature and sea level g! Making changes at home can help change our future greenhouse gas emissions and better use for our natural we don't save energy at home, we will have high bills

# Answers (exams 2TCS/GE)

### A/ Reading comprehension

6) The text is about  $\rightarrow$  b) the benefits of saving energy

## 7) Are these statements true or false

- a) true b) false c) true d) false
- a) People can contribute to save energy by saving energy at home / using it wisely.

b) The sea level rises because of the emissions of gases that act as a blanket that traps the sun's heat.

c) The consequence of wasting energy is paying high bills and insurance. There will be less rain and less water to drink.

# 9) This idea is mentioned in the last $(4^{th} \$)$ paragraph.

it  $\Rightarrow$  our planet / that  $\Rightarrow$  lot of things / that  $\Rightarrow$  unclean substances and gases

### **B/ Text exploration**

6) a) effect  $\Rightarrow$  impact / b) equipments  $\Rightarrow$  devices

7) a) absorb  $\neq$  release / b) low  $\neq$  high

## 8) <u>Complete the table</u>

Verb	Noun	Adjective
protect	protection	protective
use	use	useful / useless
threaten	threat	threatned / threatening

- 9) a) Why is air getting more and more polluted ?
  - b) What do pollutants contaminate ?
  - c) Why should people save energy ?
- 10)a) veilb) protectsc) damagedd) destructive

\_Importance must be given by people to the protection of natural life.

\_They cut down thousands of trees for industrial needs.

\_Rivers are polluted by chemical wastes.
